The **FEMIRAD** is an initiative to promote the Female Radiographers. Our aim is to provide continuous educational support in order to encourage Female Radiographers and prepare them for future endeavours.

First **FEMIRAD** was organised in the year 2015 at Mumbai. It was a huge success with scientific sessions delivered by eminent faculty. The whole purpose of organising this National CME is to stay tuned with the recent developments in our field along with being rooted to basics of Radiology which still hold a lot of weightage in day to day practice.

We as Radiographers have this immense responsibility of passing on the legacy of good work to our new budding Radiographers for a better future.

**!! Jai Hind !!**
