PROF. K.S.R. LIFE TIME ACHIEVEMENT AWARD
to the eminent Radiographer

Organized by

SOCIETY OF INDIAN RADIOGRAPHERS (SIR)

Affiliated to

in Association with

SIR
Telangana
Chapter

A Word from the Organizing Committee...

Prof. Padmasri Kakarla Subbarao was an Eminent World Renowned Radiologist who has dedicated entire life for the development and research of Radiology. KREST was his brainchild to achieve his goals. He was an icon for Indian Radiology. He was the founder Director for Nizam's Institute of Medical Sciences, Hyderabad.

He always used to say to have the **Human Touch** while attending the Patients and says **Rogi (Patient) Devo Bhava**, as the Patient is providing an opportunity to serve and earn. He says first thirty years to Learn, Next thirty years to Earn and final thirty years to Serve and followed the same and left the eternal world at the age of 96 recently on 16th April 2021.

The Society of Indian Radiographers (SIR), Telangana State Chapter has established an Award on the name of **Prof. Kakarla Subbarao Lifetime Achievement Award** in the year 2014 to honor an eminent radiographer and continuing since then. Likewise to inculcate and develop the skills and knowledge among the student radiographers, **Prof. K.S.R. Best Scientific Paper Award** was established.

Since 2014, Both the Programs are being conducted every year on the national platform during the National Conferences, conducted by SIR or sometimes exclusively. This year, we added another Competition for Radiographers too in addition to the regular programs. The National Competition is being conducted on virtual mode due to covid-19 pandemic.

We hope the Radiographers and Student Radiographers will participate in large number and make a Grand Success.
